PROFESSIONAL SUMMARY

Full Stack JavaScript Developer, Technical Lead, and Co-Founder with 18+ years of experience architecting and delivering modern web, mobile, and AI-powered SaaS solutions. Expert in React, React Native, Next.js, Node.js, and TypeScript. Proven track record leading remote development teams and integrating cutting-edge AI APIs to build production-grade products from zero to launch.

TECHNICAL EXPERTISE

- **AI & Integrations:** Anthropic Claude API, AssemblyAI, AI-assisted code generation, Prompt Engineering.
- **Frontend & Mobile:** React, React Native, Expo, Next.js, TypeScript, Tailwind CSS, shadcn/ui.
- **Backend & APIs:** Node.js, Express, Apollo Server/Client, GraphQL, REST APIs, Supabase, PostgreSQL, MongoDB.
- **Testing & Quality:** Jest, React Testing Library, Cypress, Playwright, TDD Methodologies.
- **DevOps & Infrastructure:** AWS, GCP, Docker, Kubernetes, CI/CD (GitHub Actions, GitLab CI), Cloud Computing.
- **Architecture & Methodology:** Microservices, System Design, Agile/Scrum, Component Libraries (Storybook).
- **Blockchain:** Ethereum, Solidity, Smart Contracts, Web3.js, DeFi, NFT.

PROFESSIONAL EXPERIENCE

Universidad Tecnológica Nacional, Mendoza — Professor (Contract) · AUGUST 2023 – PRESENT

- Crafted comprehensive curriculum for Software Engineering program, instructing 100+ students in modern JavaScript frameworks and tools
- Pioneered hands-on learning approach resulting in 40% increase in student project completion rates
- Mentored 25+ students on capstone projects, with 5 projects being adopted by local businesses

IMI Health — Co-Founder & CTO · MARCH 2025 – PRESENT

- Architected and delivered an end-to-end AI-powered SaaS platform from zero to production launch (currently live with early-access physicians), enabling doctors to generate structured medical reports via real-time voice transcription and ambient AI
- Engineered full-stack platform using Next.js, TypeScript, Supabase, and Tailwind CSS / shadcn/ui, establishing a scalable foundation designed to support rapid user growth
- Integrated AssemblyAI for real-time and post-consultation voice transcription, reducing physician documentation time by eliminating manual data entry across both dictation and live ambient recording modes
- Implemented Anthropic Claude API for intelligent medical report generation, producing dual-format outputs: a structured clinical document for the physician and a plain-language summary for the patient
- Built automated multi-channel delivery system using Resend and WhatsApp Business API, enabling one-click report dispatch to doctors and patients
- Designed digital patient consent workflow embedded directly into the report pipeline, ensuring legal compliance and audit-ready documentation on every consultation
- Built and shipped a companion React Native / Expo mobile application for iOS and Android with full feature parity to the web platform, extending ambient AI recording to live in-person consultations

Leverage, Mendoza — Senior React Native Developer (Remote) · AUGUST 2023 – FEBRUARY 2025

- Architected core features for IoT mobile application that achieved 4.8/5 star rating across platforms
- Optimized API response time by 65% through restructuring of Node.js backend services and introduction of efficient caching strategies
- Engineered cross-platform UI components that decreased development time by 30% while maintaining design consistency
- Designed comprehensive test suite that identified and resolved 40+ critical bugs before production release
- Spearheaded migration from JavaScript to TypeScript, resulting in 78% reduction in type-related runtime errors

Bitovi, Mendoza — Full Stack JavaScript Consultant (Remote) · AUGUST 2021 – JULY 2023

- Delivered strategic technical guidance to 12+ client projects, consistently exceeding delivery expectations and KPIs
- Accelerated application performance by 70% through integration of GraphQL and Next.js server-side rendering
- Constructed scalable database architecture using PostgreSQL that successfully handled 300% traffic growth
- Established modular component library with Storybook that shortened UI development time by 40% across multiple projects
- Instituted automated testing protocols that increased code coverage from 45% to 92% while minimizing regression issues by 65%

Kimetrica, Mendoza — React Technical Lead Developer (Remote) · AUGUST 2020 – JULY 2021

- Led team of 8 developers in delivering complex data visualization applications for international humanitarian organizations
- Devised scalable frontend solution that processed and displayed 200+ million data points with sub-second response times
- Created comprehensive UI design system that diminished design inconsistencies by 85% across 5 different applications
- Formulated code quality standards and review processes that trimmed critical bugs by 75% in production environments
- Mentored junior developers, resulting in 3 promotions within the team during 12-month period

PREVIOUS PROFESSIONAL EXPERIENCE

Joybird — Full Stack JavaScript Developer (Remote) · AUGUST 2019 – JULY 2020

- Engineered e-commerce features that boosted conversion rates by 18% and average order value by 12%

Mokriya — Full Stack JavaScript Developer (Remote) · AUGUST 2018 – JULY 2019

- Built mobile application features using React Native that grew monthly active users by 45%

6connect — Software Engineer (Remote) · AUGUST 2016 – JULY 2018

- Transformed network management tools that streamlined configuration time by 60% for enterprise clients

Careerlist — Solution Architect (Remote) · AUGUST 2015 – JULY 2016

- Designed scalable architecture supporting 200K+ daily active users across multiple platforms

VMBC — Technical Leader (On-site) · NOVEMBER 2013 – JULY 2015

- Orchestrated development team in delivering business-critical applications with 99.9% uptime

ExxonMobil — Intranet Application Developer (On-site) · MAY 2011 – OCTOBER 2013

- Innovated internal applications that expedited operations and saved 25+ hours per week in manual processes

EDUCATION

- Master of Computer Science — Universidad Católica Argentina, Buenos Aires, 2014–2015
- Bachelor of Computer Science — Universidad Juan Agustín Maza, Mendoza, 2005–2009
- Cambridge Advanced English (CAE) — University of Cambridge, Buenos Aires, 2012
- First Certificate in English (FCE) — University of Cambridge, Mendoza, 2009
